## About Telix Pharmaceuticals Limited

Telix Pharmaceuticals Limited (“Telix”, the “Company”) is a Australian public Company (ASX:TLX) headquartered in Melbourne with operations in Europe, the US and Japan. Our mission is to be a leading, global biopharmaceutical Company in the field of “theranostic” radiopharmaceuticals and the Company is currently developing a mid-late stage pipeline of products in prostate, kidney and brain (GBM) cancer.

## Description

The role is responsible for Management and coordination of shipments globally for Telix products including raw materials, drug substance and drug product. Effective management of relationships with logistics vendors including analysis performance of logistics vendors. Working with program and commercial teams to coordinate shipping activities, lanes and distribution activities. Sourcing of back-up logistics providers for global shipments.

The role will be based in the USA and reports to the Director Global Manufacturing and Logistics (based in Australia) but is expected to have extensive interaction with key staff in the USA and other international locations.

**Key Objectives:** As Logistics Manager, the employee is responsible for logistics and distribution activities in accordance with GMP, GDP, IATA requirements which includes but is not limited to the management of all clients, distribution and operators ensuring the distribution of Telix group products throughout the world.

---
