

Telix Quality Policy

Telix is committed to operating the business to the highest standard of quality for patients, customers, employees, and stakeholders. Our ability to deliver safe and effective radiopharmaceuticals is the very core of our commitment to serve patients.

We comply with quality standards and health authority requirements through each stage of the product lifecycle, from research and development to manufacturing, and distribution.

We are dedicated to ensuring data integrity and maintaining the highest operational ethics. We actively monitor and manage risks to protect the safety of our patients.

Our commitment to continuous improvement drives excellence in our data management, systems, processes and people.

We believe that good practices must be communicated, understood and adhered to by all Telix employees. Telix employees are vital to our purpose of helping people with cancer and rare diseases live longer, better quality lives.

Christian Behrenbruch
Group Chief Executive Officer
