Job Description: Global Regulatory Affairs - US Advertising and Promotion Lead

Type: Full Time

Location: Indianapolis, IN (hybrid)

Date: Immediate

About Telix Pharmaceuticals Limited

Telix Pharmaceuticals Limited ("Telix", the "Company") is an Australian public Company (ASX:TLX) headquartered in Melbourne with operations in Europe, the US and Japan. Our mission is to be a leading, global biopharmaceutical Company in the field of "theranostic" radiopharmaceuticals and the Company is currently developing a mid-late stage pipeline of products in oncology and rare diseases.

About The Role

Telix Pharmaceuticals is actively building its global Regulatory Affairs team to support rapid business growth. Reporting to the *Manager, Global Regulatory Affairs - Operations*, the Global Regulatory Affairs US Advertising and Promotion Lead will develop and manage regulatory review and approval of US promotional materials in alignment with Corporate and Group strategic goals. The role will hold responsibility for providing clear direction, regulatory guidance and regulatory expertise across the business related to US advertising and promotion.

The role will evolve as the business continues to grow however core responsibilities include everything related to this specialisation area of Regulatory Affairs. Accountabilities include:

- Guiding the regulatory requirements and expectations for compliant communications
- Communicating OPDP expectations and feedback received by Telix, interpretation of applicable laws, regulations and guidance's, and knowledge of FDA enforcement actions
- Contributing to business risk mitigation strategies by following trends in external environment related to advertising, promotion and medical communication topics
- Liaising with FDA OPDP in collaboration with marketing team to interpret and support FDA interactions
- Reviewing promotional material submissions to FDA, press materials and communications and working closely with US Marketing and Communications in development and analysis of promotional claims and strategy

About You

You ideally hold a Bachelors' degree (or higher) in a relevant discipline and have progressive and demonstrable experience in pharmaceutical drug development, US advertising and promotional materials and project management. You're a confident communicator and enjoy working with diverse stakeholder groups. You also have a global mindset and are comfortable working in a fast-paced, agile environment.

Why work at Telix?

We are a dynamic, fast-growing biopharmaceutical company where employees have a shared purpose: to help people with cancer and rare diseases live longer, better quality lives. We are a passionate group of professionals looking for like-minded people to join us on the journey.

Agency support is not required for this role and no submissions will be considered.
