About Telix Pharmaceuticals Limited

Telix Pharmaceuticals Limited (“Telix”, the “Company”) is an Australian public Company (ASX:TLX) headquartered in Melbourne with operations in Europe, the US and Japan. Our mission is to be a leading, global biopharmaceutical Company in the field of “theranostic” radiopharmaceuticals and the Company is currently developing a mid-late stage pipeline of products in oncology and rare diseases.

About the Role

Reporting to the CMO - EU, this role will serve as a field-based clinical and medical expert for the business. The position holds responsibility for appropriately engaging in medical and scientific exchange and gaining insights in support of Telix Pharmaceuticals’ products, research areas, and disease state of interest. MSLs are required to develop and maintain relationships with medical experts in the fields of oncology, urology, radiology and nuclear medicine and other medical disciplines related to the diagnosis and/or management of patients relevant to the Company’s product portfolio. Through scientific exchange, MSLs communicate and advance the scientific platform aligned with the overall medical communications and Medical Affairs strategies.

About You

Every day will be different, so we are looking for flexible, resilient and self-motivated individuals to join the team. You will ideally have an advanced scientific, healthcare, or medical degree (PharmD, PhD, MD, RN) and demonstrated experience as an MSL. Experience in radiopharmaceuticals and/or oncology is highly desirable! You will also be confident in building relationships and collaborating with medical experts. You hold a valid driver’s licence and love to travel as regular interaction with stakeholders in regional and international locations is expected.

This is a remote role so you can be based in France, Belgium, Italy or Spain. English is critical however please highlight other languages of fluency in your application.

Why work at Telix?

We are a dynamic, fast-growing biopharmaceutical company where employees have a shared purpose: to help people with cancer and rare diseases live longer, better quality lives. This is an exciting time for Telix and we are looking for like-minded, passionate professionals to join us on the journey.

No agency submissions will be considered for this role.
