Type: Full Time

Location: Seneffe

Date: Immediate

About Telix Pharmaceuticals Limited

Telix is an Australian public company (ASX: TLX) headquartered in Melbourne with international operations in Europe, the US and Japan. Our vision is to be a leading, global biopharmaceutical company in the field of “theranostic” radiopharmaceuticals and we are currently developing a portfolio of clinical-stage products that address significant unmet medical needs in oncology and rare diseases.

Description

Telix is rapidly growing and we currently recruiting for an experienced GMP Facility Engineer to join the team at the Telix Manufacturing Solutions (TMS) Seneffe radiopharmaceutical facility. Reporting to the TMS General Manager (GM), the successful candidate will play a key role in the set up of the new facilities. This person will be in charge of maintenance supervision and development of the installations to ensure a safe and secure working environment for the GMP manufacturing process and visitors.

Other key responsibilities will include:

- Providing direction and technical expertise in design and integration of the new GMP facility
- Development, implementation and supervision of maintenance programs and preventative maintenance programs
- Supervision and leading suppliers' performance to align with requirements and TMS operational strategic goals
- Crafting a budget to account for the facility's operational costs
- Negotiating contracts with outside vendors for equipment, consumables and services
- Ensuring that required policies and practices in place and arranging for employee training
- Maintaining and implementing continuous improvement of business practices
- Preparing timely and accurate TMS facilities performance, management reports
- Complying with 'Conseiller en prévention de Niveau II' responsibilities as defined by the Code of Well-being.

To be considered for the role, you must have a relevant tertiary degree and progressive experience as a Facility Engineer (or equivalent) at a Radiopharmaceutical Manufacturing facility. Experience in a GMP environment and team leadership / management are also mandatory. A 'Conseiller en prévention' certification will be highly regarded.

Applications must be in English.

This is an exciting time for Telix. Come join us on our mission to help patients with cancer live longer, better quality lives!

No agency submissions will be considered for this role.
