#### About Telix Pharmaceuticals Limited

Telix is an Australian public company (ASX: TLX) headquartered in Melbourne with international operations in Europe, the US and Japan. Our vision is to be a leading, global biopharmaceutical company in the field of “theranostic” radiopharmaceuticals and we are currently developing a portfolio of clinical-stage products that address significant unmet medical needs in oncology and rare diseases.

#### Description

Telix is growing again and looking for a *Senior Manager / Director, External Manufacturing* to join our Indianapolis team. Working alongside the *SVP, Global Manufacturing and Operations*, the successful candidate will contribute to developing manufacturing and operational plans for the Group’s clinical and commercial assets in collaboration with the Regional COOs in EMEA, AsiaPac and the USA. This is a critical, newly created role which will help to ensure adequate global production, supply chain, logistics and distribution planning to support current clinical and commercial development of the Group’s assets. Key accountabilities will include:

- Supporting the development and implementation for External Contract Manufacturing (ECM) execution and strategy
- Partnering with ECMs to ensure quality, delivery and cost meet or exceed corporate deliverables and goals and serve as liaison between Telix and ECM network
- Partnering with Project/Program Management functions to develop manufacturing and capacity strategies
- Supporting quality investigations and non-conformances
- Leadership, development and performance management of the global manufacturing team
- Leading business reviews with suppliers/contracting organizations
- Responsibility for ECM metrics for scorecard/dashboard
- Manufacturing budget management and continuous improvement initiatives

To be considered for the role, candidates require a minimum of a BA or BS degree in Engineering, Chemistry or another relevant field and demonstrate progressive experience in cGMP Manufacturing, Contract Manufacturing or Quality. Direct experience in Sterile Injectable Filling and Lyophilization of Drug Product/Substances manufacturing supporting both clinical and commercial products is also required along with experience working with international Contract Manufacturing Organizations.

\*\* Up to 30% travel is required for this role (domestically and internationally).

This is an exciting time for Telix. Come join us on our mission to help patients with cancer live longer, better quality lives!

No agency submissions will be considered.
